

- **Pro on the Hole**

This add-on has the Pro staying on a designated hole of any length, and the group can have the Pro hit for them.

- **String it Out**

Players may buy a piece of string (length determined by tournament) for a set price. This string may then be used during play to improve a player's lie or even void a stroke. At any point, a player may move the ball the length of the string or less, to any desired position. If the player uses less than the full length, they must cut the amount used off the length of their string. Then, they only have the remaining amount to use for a future situation during the round.

The string can be used to improve your lie or on the putting surface, the catch is that each time you use your string, you must cut off the amount of the string corresponding to the distance your ball was moved. Move your ball 6 inches to get out of a bunker or make a putt, cut 6 inches off your string until your string runs out (a ball can be moved out of any hazard other than a water hazard).
